

DECLARATION OF COMPLIANCE n. 1/2026
with Regulation (UE) 2025/40 "PPWR"
on packaging and packaging waste

DCL103

REV.0

31/07/2026

1. N. (unique identification of the packaging)

- **Pack. 1:** Box W010PBI, Box W040WBI, EURO-pallet XPA120HT, stretch film ZFIM5100205
- **Pack. 2:** Box W010PBI, Box W060WBI, EURO-pallet XPA120HT, stretch film ZFIM5100205
- **Pack. 3:** Box W020PBI, Box W040WBI, EURO-pallet XPA120HT, stretch film ZFIM5100205
- **Pack. 4:** Box W020PBI, Box W060WBI, EURO-pallet XPA120HT, stretch film ZFIM5100205
- **Pack. 5:** Box W030PBI, EURO-pallet XPA120HT, stretch film ZFIM5100205

2. Name and address of manufacturer

BONOMI INDUSTRIES Srl (P.IVA: 00300000171)
 Via Padana Superiore 29,
 25080 - Mazzano (BS), Italy

3. Declaration of conformity to Reg. (UE) 2025/40 "PPWR"

This declaration of conformity is issued under the sole responsibility of the declarant, who is hereby referred to as manufacturer since it applies its own trademark on its packaging, which is produced by third parties (Art. 3, par. 13, EU Reg. 2025/40).

4. Object of the declaration (description of the packaging)

- W010PBI: primary packaging consisting of a paper box, size 192x138x74. The packaging is single-use, with a unit weight of 63g, intended for packaging industrial low pressure shut-off and regulating brass valves, actuators, related components and accessories in brass or aluminum and custom-made products. Traceability is granted by a batch number and by company's ERP-system.
- W020PBI: primary packaging consisting of a paper box, size 192x138x148. The packaging is single-use, with a unit weight of 98g, intended for packaging industrial low pressure shut-off and regulating brass valves, actuators, related components and accessories in brass or aluminum and custom-made products. Traceability is granted by a batch number and by company's ERP-system.
- W030PBI: primary packaging consisting of a paper box, size 292x195x153. The packaging is single-use, with a unit weight of 255g, intended for packaging industrial low pressure shut-off and regulating brass valves, actuators, related components and accessories in brass or aluminum and custom-made products. Traceability is granted by a batch number and by company's ERP-system.
- W040WBI: secondary packaging consisting of a paper box, size 395x287x153. The packaging is single-use, with a unit weight of 235g, and is used as wrap-around for W010PBI and W020PBI boxes. Traceability is granted by a batch number and by company's ERP-system.

- W060WBI: secondary packaging consisting of a paper box, size 292x197x153. The packaging is single-use, with a unit weight of 148g, and is used as wrap-around for W010PBI and W020PBI boxes. Traceability is granted by a batch number and by company's ERP-system.
- XPA120HT: tertiary packaging consisting of a wooden EURO-pallet, size 120x80x23.5. The packaging is single-use, with a unit weight of 1.5 kg and is meant to carry primary and secondary packaging.
- ZFIM5100205: tertiary packaging consisting of stretch film. The packaging is single-use and is meant to carry primary and secondary packaging.

5. The object of the declaration referred to point 4 is in conformity with the relevant Union harmonisation legislation

The manufacturer declares that its suppliers (packaging producers) produced the relevant declarations of compliance with the applicable requirements of EU Regulation 2025/40 on packaging and packaging waste, as well as packaging technical specifications. Such information provided by producers are deemed accurate at the date of this declaration.

6. References to the relevant harmonised standards and additional information

With regard to PFAS substances, compliance was assessed based on data provided by the packaging producers. Furthermore, the packaging is designed to limit its weight and volume to the minimum necessary to ensure the product's safety, containment, protection, handling, and marketing functions, in accordance with Article 6 of the Regulation.

Articles 7, 8, 9, 10, 11, and 12 of the Regulation — which pertain to recyclability, reusability, minimum recycled content for specific materials, harmonized labeling, digital systems (QR codes), and compostability — are not currently applicable to the packaging mentioned at point 4, or they refer to obligations not defined by the legislation yet.

The above-mentioned declarations and technical documentation are duly stored by the manufacturer and can be made available upon request.
